

Lesson 14: Gallery Education Week –

Finding out about Artists and Art Organisations

For every young artist it is important to learn about local artists, the landscape of local art culture and arts organisations and how they work. In Artists Education week Young Masters will have the opportunity to learn about the journey and the work of some of the artists, who teach them on a weekly basis, and also the famous David Hockney, who is celebrating his 80th birthday this year. The arts organisations will include Salts Mill and Kala Sangam.

During the week Young Masters will be learning about their teachers including Georgia, Amy, Bethan, Sharon and Salma and Kala Sangam as an arts organisation. We will find out more about Kala Sangam on a day of our end of term exhibition opening on 8th July. Our Saturday Merchants Quay groups will be making a visit to Salts Mill and finding out about David Hockney.

Young Masters, who wish to complete their Trinity College London accreditation at Explore level (pre-GCSE certificate) will be given the opportunity to gain this accreditation by the end of this term.

Materials:

- Pencils / Paper / Sketch Books
- Worksheets
